BACKBAR COST

Approx \$13 to \$20

BEFORE | DURING | AFTER

Pre-Care

For clients prone to PIH or with melanin-rich skin, begin a tyrosinase inhibitor several weeks prior to support outcomes. Discontinue exfoliating actives 7 days prior to treatment.

In Treatment Experience

Peeling step may tingle or itch, both of which are normal.

Post Treatment Care

Homecare is tailored to each client's primary skin concerns.

Treatment Cadance

Can be done every 7 to 10 days with 3 to 4 treatments recommended.
*A resting phase of 3 months before doing another round is recommended.

PRODUCTS NEEDED

KrX Pre Peel Cleanser
KrX Pre Cleansing Oil
Pre Peel Toner
Pfect-A Illumin Peel
KrX Post Peel Toner
KrX Cica Recovery Cream
KrX Repair Cream
Pfect-A Solar Elixir SPF

CONTRAINDICATIONS + CONSIDERATIONS

Allergy to any of the ingredients, Dermatitis, Sunburn, Barrier impairment or inflammation, Pregnancy

PROTOCOL

CLEANSE + PREP

Prepare skin by cleansing with KrX Pre Cleansing Oil as a pre-cleanse followed by KrX Pre Peel Cleanser

TREATMENT STEPS

1. Apply KrX's Pre Peel Toner to degrease the skin
2. Shake Illumin well to ensure oil and peel solution are mixed together. Open cap just enough to extract peel with needle (2ml for face, 1.5 ml for neck and 2.5 for décolleté)
3. Apply peel using a brush or gloved hands and massage into the skin.
4. Leave on face, neck and decollete for 3 to 5 minutes. Remove with a damp sponge or 2x2.
5. There is no need to neutralize, however we do recommend applying Post Peel Toner to help soothe the skin.

FINISHING STEPS

Apply KrX's Cica Recovery All Day Cream or Repair cream and SPF
