

# VTOX

A peptide-driven treatment formulated to deliver an immediate visible lift, supporting microcirculation and the skin's natural collagen and elastin production. Often referred to as a facelift in a bottle, it offers a non-invasive alternative for clients seeking firmer, more lifted-looking skin without downtime.

## BENEFITS

- Delivers noticeable lifting and firming in under an hour when following the recommended protocol.
- Peptide complex support collagen and elastin activity.

### TREATMENT STACKING

Works well within anti-aging facials. Try LiftedO<sub>2</sub> Facial, or Advanced VTOX Facial.

#### **In Treatment Experience**

VTox step may cause itching while on skin due to an increase in microcirculation. Advise clients not to speak while the mask is on for full constriction of mask.

#### **Post Treatment Care**

Keep skin hydrated after treatment. To help extend results KrX Youthplex Homecare line is recommended.

#### **Treatment Cadance**

A series of 3, 2 weeks apart is recommended.

## PROTOCOL

## CLEANSE + PREP

Prepare skin by cleansing with KrX Youthplex Cleansing Fluid

## TREATMENT STEPS

1. Exfoliate if needed - Blue Peel or a Gentle Enzyme Cleanser are recommended.
2. Apply Vtox (4 to 5 syringes) to skin using upward strokes with your favorite fan brush. You may apply additional layers for an extra tightening effect.
3. Let mask fully dry for 15 to 20 minutes. A fan will expedite the process.
4. Rehydrate the mask with a mask brush and water or Face Lift Toning Solution.
5. Remove mask with warm damp towel.

## FINISHING STEPS

Finish with Youthplex Serum, Moisturizer and SPF

Tip: Lymphatic drainage massage will increase results. This step can be done after rehydrating the mask, or after mask removal.

Using the leaf and utilizing all three modes will also amplify results
